**When Northeast Ohio's award winning restaurant** searched for an economical way to add additional seating capacity, they called on C.S.P., The Commercial Division of Patio Enclosures, Inc., to provide the solution.

**C.S.P. provided all engineering, manufacturing and installation** for a 18' x 50' glass solarium to enclose the existing outdoor deck. A major challenge was to create a space that blends with the unique features and details of a log cabin, as well as, keeping that outdoor feeling.

**By working closely with the owners of the restaurant,** C.S.P. was successful in making their vision real. To keep with the blue color theme, high performing Low E blue glass was utilized. To tie in the existing colors, a custom chutney paint was used on the exterior, along with a bronze interior.

**C.S.P. completed the project two weeks ahead of schedule.** The flexibility of design and engineering makes C.S.P. the only choice for your next challenging project.

## **C.S.P., the recognized leader in glazed structures**

### **The building features are:**

- 1" insulated high performance Low E blue glass
- Custom color, two tone paint
- Laminated roof glass for safety
- Maintenance free structural components
- Commercial doors with panic hardware
- Installation by C.S.P. employees

**The Commercial Division of Patio Enclosures, Inc. will solve your space needs.**
