

COMMERCIAL SUNROOM PRODUCTS A Division Of Patio Enclosures, Inc.

Hebrew Home For The Aged
Rockville, MD

The Hebrew Home for the Aged searched for a way to create usable space for an area that was not utilized to maximum effectiveness. The expertise of C.S.P., The Commercial Division of Patio Enclosures, Inc., was called upon to provide the only cost effective solution for the facility. C.S.P. designed and installed a second story straight eave solarium, on the five story building. C.S.P. transformed the space into a functioning, multi-purpose room, adjoining the dining area. Not only do the residents feel as if they are dining Alfresco, the space creates a great atmosphere for a friendly game of bingo.

The solarium allows generous amounts of natural sunlight to burst in the room, improving visibility and light quality, fostering health and happiness. The bronze solarium blends beautifully with the existing windows and brick, yielding that "always been there" look, not simply an addition.

The building benefits are:

- Custom design
- Sliding bay windows
- 1" Low E Laminated roof glass
- PPG Bronze Duracron/Polycron finish
- Turnkey services
- Installation by certified, factory trained installers.

The Commercial Division of Patio Enclosures, Inc. will solve your space needs.
