

COMMERCIAL SUNROOM PRODUCTS

A Division Of Patio Enclosures, Inc.

Commons Of Marice, Minneapolis, MN

The Commercial Division of Patio Enclosures, Inc. specializes in providing turnkey services to the senior living population. After a local developer had concerns for enclosing numerous balconies for their project, they called on the proven track record of C.S.P.

Working with the developer and the owners Architect, C.S.P. designed a cost effective and safe solution. Each balcony received a custom designed and installed railing system, along with our "Super Screen" system, providing maximum visibility and strength.

Our Enclosures provide unit owners opportunity to enjoy outdoor living without being affected by annoying insects.

The multi-story units blend perfectly with the architectural features of the main buildings.

The building benefits are:

- Custom design
- Turnkey services
- Installation by certified employee owners
- Black painted aluminum screening
- Custom Safety Railings

The Commercial Division of Patio Enclosures, Inc. will solve your space needs.

Contact us for more information and our CD Rom.
