When seafood restaurant group M & S desired to create additional space for their bustling downtown Atlanta location, they wanted to add volumes of natural light. Working in conjunction with the owners architect, C.S.P. provided the customized glass solarium to meet the specific requirements of the owner.

The 17' x 75' straight eave solarium encompasses space for approximately 80 people. The interior of the solarium is finished with a M & S custom green, while the exterior is white. Part of the challenge of this project was to allow the existing sign to penetrate the new glass roof. An additional challenge was in the connection of the solarium to the existing glass curtain wall to insure a weather tight connection.

C.S.P. completed the project within 90 days.

The flexibility of design and engineering makes C.S.P. the only choice for your next challenging project.

C.S.P., the recognized leader in glazed structures

The building features are:

- Custom spandrel glass
- 1" insulated, Azuria Low E, blue tint glass
- Custom Color, two tone paint
- Laminated roof glass for safety
- Commercial doors with panic hardware
- Installation by C.S.P. employees

The Commercial Division of Patio Enclosures, Inc. will solve your space needs. Contact us for more information.
