MONTEVALLO UNIVERSITY
MONTEVALLO, ALABAMA

Copyright 2005 Patio Enclosures, Inc.

Montevallo University was searching for a creative cost effective way to relieve the crowding in their existing food service building. The university entrusted the experienced **Team of C.S.P.** to provide a custom curved, glass solarium, sized at 15' x 70'. The vast amount of natural light afforded by the solarium opened the entire dining facility.

To control heat found in southern locations, C.S.P. used high performance glazing, working in harmony with the designed mechanical systems. This combination provide a comfortable environment in which meals can be enjoyed. The entire project was completed in under 90 days.

Trust your next valued project to the Team at C.S.P.

C.S.P. The recognized leader in glazed structures

The building features are:

- 1" insulated Solarcool bronze, Low E glass
- Laminated roof glass
- Installation by C.S.P. employees
- Commercial doors with panic hardware

The Commercial Division of Patio Enclosures, Inc. will solve your space needs. Contact us for more information.
