

# COMMERCIAL SUNROOM PRODUCTS

A Division Of Patio Enclosures, Inc.

Copyright 2004 Patio Enclosures, Inc.

**Two local companies collaborated** to create a unique dining experience. The Commercial Division of Patio Enclosures, Inc. and neighboring Perkins Restaurant worked together to solve the restaurant's increasing demand for seating capacity. Often having to turn patrons away, Perkins can now seat an additional 60 people in the new spacious 14' x 40' conservatory solarium, designed, manufactured and installed by C.S.P.

**Accepting the challenge** to create a unique glass structure, C.S.P. combined their straight eave solarium with a hip roof, integrated with a conservatory roof extension, for a visually stunning addition. The sandstone color frame blends perfectly with the existing restaurant. Utilizing high performance glazing to complement the mechanical system designed for the addition, which affords the patrons the utmost in comfort.

**The flexibility of C.S.P.'s design and engineering,** combined with precision manufacturing and installation by company employees, makes C.S.P. the only choice for your next project.

C.S.P., the recognized leader in glazed structures.

#### The building features are:

- Specifically engineered for clear span
- 1" Dual Sealed, Low E High Performance Glazing
- Duracron/Polycron Sandstone finish
- Commercial doors with panic hardware
- Single source responsibility
