A Division Of Patio Enclosures, Inc.

Smoking Enclosures Various Locations

C.S.P. The Commercial Division of Patio Enclosures, Inc. will design, manufacture and install a smoking shelter to meet your specifications and finish requirements. We customize your smoking shelter to your needs for the same cost of an off the shelf or stock unit, yet C.S.P. affords you the flexibility of design.

Our smoking shelters can be made free standing or attached to your facility and are made of all aluminum extrusions, with a PPG Duracron/Polycron, virtually maintenance free painted finish. Single glazed or insulated glass is available. Our roof will consist of all glass, with a straight or curved eave, or with our 3" and 6" super foam insulated panel.

C.S.P. will complement the enclosure with a variety of options, including insulated rolling doors, swinging doors or windows and ventilation fans mounted in wall or roof. All vertical glass is tempered and roof glass will be laminated to insure the safety of your users.

For all your smoking enclosure plans, the experienced team at C.S.P. is there to assist you.

The Commercial Division of Patio Enclosures, Inc. will solve your space needs.

Contact us for more information or to obtain our CD Rom.
