

COMMERCIAL SUNROOM PRODUCTS

A Division Of Patio Enclosures, Inc.

St. Lawrence Rehabilitation Center is a 116 bed physical rehabilitation hospital. Patient wellness and rapid recovery are priorities strived for by the staff. The foresight of the administration and key supporters of the facility came together with a vision to provide a new addition consisting of an all glass solarium. After much research, they called upon the expertise of the Commercial Division of Patio Enclosures, Inc. to make their vision a reality.

The solarium is where patients absorb the powerful healing and comfort from the volumes of natural light, unmatched by conventional construction. Studies have shown the many advantages of natural light to health, mood and emotion.

The custom designed, Curved Eave Solarium blends beautifully with the existing building architecture. C.S.P. provided complete turnkey services to the hospital eliminating multiple contracts common to construction projects. A patio with landscaping, stone walls, donor paver bricks and custom gates make this a truly unique project.

The building features are:

- Custom design
- Installation by certified employee owners
- 1" insulated glass throughout
- Bronze, Low-E Tempered Glass
- Commercial doors with panic hardware
- Turnkey services

The Commercial Division of Patio Enclosures, Inc. will solve your space needs.
